MARIO CAMPANACCI

## AIM OF THE COURSE

The course is a four-day program focused on the latest challenges in diagnosis and management of bone and soft tissue tumors, with particular emphasis on clinicopathologic and radiographic correlations. It is designed for orthopedic surgeons, oncologists, pathologists, radiologists, radiotherapists and basic researchers who wish to deepen their expertise in musculoskeletal tumors.

The format features includes interactive sessions, multidisciplinary case discussions, and lectures by internationally recognized experts in musculoskeletal oncology. On the final day, participants will work in teams to apply their knowledge in a contest involving unknown cases.
